

GLASS MARKET

TempaClad™

THE CHOICE IS CLEAR

TempaClad™

TempaClad™ ceramic painted glass stays spectacular no matter what the weather throws at it.

Choose from a wide range of coloured glass options to suit your design aspirations. With tough, durable and weather resistant surface as well as high UV resistance, TempaClad™ is ideal for external building facades. Here is where it shines, staying bright in all kinds of weather while making office and commercial spaces truly stand out. For interior applications, it finds great use adding a dash of colour to rooms as splashbacks or internal wall cladding.

With a huge spectrum of colour and available in opaque and transparent options, TempaClad™ makes your building look more vibrant than ever before.

This is the kind of beautiful that just won't quit. TempaClad™ is stunning coloured decorative glass made durable, as well as weather and heat resistant to stand up to the Australian climate.

Tough and Weather Resistant

TempaClad™ is toughened and weather resistant thanks to its non-porous coating permanently fused to its surface.

Range of Colours

Unique looks for every design are available, with a wide selection of colours to choose from in both opaque and transparent options.

UV Resistant

TempaClad™ ceramic coating blocks a significant amount of UV radiation from the sun, reducing solar heat gain in the building and slowing the rate of UV exposure.
