

GLASS MARKET

Vibra™

THE CHOICE IS CLEAR

Vibra™

Vibra™ opens up a whole new world of design options with distinctly vivid coloured glass, vinyl backed for safety.

Available in a range of stunning colours, Vibra™ brightens up a room and gives it a bold, distinct aesthetic - perfectly suited for contemporary living spaces. The vinyl backing ensures that, in the event of breakage, potentially dangerous glass shards remain in place, reducing the chance of injury.

With an endless variety of design applications for modern commercial spaces and with our custom colour matching capability, you're sure to find just the right option to suit your space.

Let light, space and colour be the centrepieces for your space with Vibra™ durable, vibrantly coloured glass.

Range of Colours

Vibra™ is available in a full spectrum of colour, ready to give your space the bold aesthetic boost it needs to stand out.

Safe Even When Broken

Should Vibra™ break, potentially dangerous glass shards remain in place adhered to its vinyl backing, reducing the risk of injury and making cleanup easier.

Durable Options

Vibra™ can be customised to further resist damage and breakage, with options for safety glazing or laminating as necessary.
