

GLASS MARKET

Mirage™ VB

THE CHOICE IS CLEAR

Mirage™ VB

With mirrors an attractive design and functional element of many commercial settings, it's imperative that they stand up to contact with customers and visitors.

Mirage™ VB is vinyl backed safety mirror glass, designed to be more durable in spaces with heavy traffic, and to reduce injury in the event of breakage. The vinyl backing adheres to the entire unit, holding potentially dangerous shards in place should the mirror break. This makes it ideal for dance studios and gyms, elevators, clothing stores and other commercial and residential areas looking to add a sense of light and space.

Treat your customers and visitors to a bright, spacious, functional room while protecting them from harm with **Mirage™ VB**.

Mirror mirror on the wall, what would happen if you fall? Mirage™ VB vinyl backed safety mirror glass is designed to remain safe in the event of breakage.

High Reflectivity

Mirage™ VB delivers exceptional visual clarity and light reflection, letting light fill the room and expanding its sense of space.

Safe Even When Broken

Should **Mirage™ VB** break, potentially dangerous glass shards remain in place adhered to its vinyl backing, reducing the risk of injury and making cleanup easier.

Available in Different Tones

With clear, grey and bronze tones available, **Mirage™ VB** fits right at home in a variety of design aesthetics.
