

GLASS MARKET

StrataColour™

THE CHOICE IS CLEAR

StrataColour™

For those looking for a truly unique aesthetic, **StrataColour™** is a coloured, laminated Grade-A safety glass that delivers a vibrant spectrum of design options in any space.

StrataColour™ is designed to play with natural light, making it an ideal choice for facades, balustrades, decorative panels and light wells. With the whole spectrum of colours available to suit your design goals, it can also be used together with our other products to deliver outstanding performance in energy efficiency, security and noise reduction.

With our colour matching capabilities, we can create the exact aesthetic you're looking for regardless of glass thickness and other product combinations.

StrataColour™ brings a dazzling display of colour and light with a choice of transparent, translucent or opaque finishes. Add an exciting touch to the interior or exterior of your building with natural light filtered through the full spectrum of colour.

Laminated Insert

The coloured laminate insert fits between two panels of glass, guaranteeing true colour for any thickness and long lasting durability.

Full Range of Colours

There's a whole spectrum of colours to choose from. No matter your decor and your taste, you're sure to find vibrant options to suit you.

Fully Customisable

StrataColour™ can be used with other products in our range for added aesthetic appeal.
