

GLASS MARKET

Bulwark™

THE CHOICE IS CLEAR

Bulwark™

Just because you can see through it, doesn't mean you can get through it easily. **Bulwark™** is a combination of several quality products and properties providing the utility and appeal of glass while protecting against attacks.

With our quality security interlayers built in, **Bulwark™** maintains its structural integrity even if the surface of the glass has been weakened. Whether through strong blunt force or sharp objects, one concentrated effort or repeated attacks, it stays strong, giving security services time to respond or even repelling the attack entirely.

Bulwark™ is available in a range of thicknesses by request, providing options for increased strength and security to suit the application.

Bulwark™ is designed to protect. Made tough to keep intruders out without compromising transparency, it's the product of choice for police stations, government buildings and commercial spaces holding high value assets on the premises.

Quality Security Interlayers

Bulwark™ contains several types of interlayers and products in various thicknesses which remain strong independently and reinforce each other as a system.

Toughened

Bulwark™ is toughened against attack, making it specifically suited for environments requiring increased security.

Range of Thicknesses

Extra protection can be provided for with a range of glass unit thicknesses to protect higher value spaces.
